Scope of Work Supporting Information - Capacity Building and Planning

Scope of Work Supporting Information

Describe identified resource needs including financial, human, technical assistance, and training needs

Resource need identification*:

At this time, no additional resources needs have been identified in relation to the resiliency plan development. The Commission often provides technical assistance and project management support at the request of member localities during development and implementation of projects. As individual locality staff needs and support are identified during the planning process to support implementation, the locality will lead this effort and seek additional support as needed.

Describe the plan for developing, increasing, or strengthening knowledge, skills and abilities of existing or new staff. This may include training of existing staff, hiring personnel, contracting consultants or advisors

Development of Existing or New Staff*:

As individual locality staff needs and support are identified during the planning process to support implementation, the locality will lead efforts to engage additional support as needed for implementation.

Where capacity is limited by funding, what strategies will be developed to increase resources in the local government? (This may include work with non-governmental organization, or applying for grants, loans, or other funding sources)

Resource Development

Strategies*:

The Commission provides support to member localities in developing grants and identifying other funding opportunities. As individual locality staff needs and support are identified, the locality will lead this effort and request additional support as needed.

Describe policy management and/or development plans

Policy management and/or development*:

At this time, no additional policy management and development is anticipated. Should policy development be identified during the planning process as part of implementation, the locality will lead this effort and seek additional support as needed. Any additional policy management and development will be handled at the discretion of the participating locality.

Describe plans for stakeholder identification, outreach, and education strategies

**Stakeholder identification,
outreach, and education
strategies*:**

Outreach to the community will be conducted with steering committee input and support to ensure robust local outreach. The contractor will develop and implement a stakeholder engagement strategy to include community outreach through communications and events that allow for information sharing and public input on matters identified by the project team. Stakeholder involvement beyond the plan development will also be directed at the local, rather than regional level.
